

DEUTSCHER LEBENSTIL UND DEUTSCHE KULTUR (German Lifestyle and Culture)

How to make the most of German culture while social distancing

Exhibitions, festivals, films and publications are also being live streamed. Berlin Art Link substituted their weekly round-up of events for a piece detailing all the events which are available online, which can be found [here](#). They will be continuously updating the piece throughout this period.

The basketball team [ALBA Berlin](#), are providing live stream lessons which aim to bring exercise and movement to children and young people daily. "ALBA's Sports Lesson" can be completed within the four walls of your own home, with a varied program such as fitness, coordination and yoga, in addition to various challenges to try.

After the live stream, all the videos are then available on their [YouTube channel](#).

Check out Library Websites

It is worth checking both your local and regional library portals to see what elements of their sites are free of use; many have even extended such usage to content that was previously behind a paywall.

You can borrow courses, books, films and music from many libraries using the online loan services across Germany.

For example, the ZLB Berlin is tweeting with the hashtag #closedbutopen, as they are promoting the vast number of e-resources that they have available.
