

## OKTOBERFEST IN MÜNCHEN

## 10 THINGS YOU'RE SURE TO NOTICE AFTER AN OKTOBERFEST VISIT

## 3. Fair rides aren't fun as an adult

The abundance of fairground attractions on the Wiesn area is staggering. If you enter the area from the south you can't help but be blown away by the sight of carousels and roller coasters spinning through the sky, all the way up to the Sankt Paul church in the distance.

Rides and curiosities that date all the way back to the mid-19th century compete with garish modern rides blasting out pop music.

The temptation is to hop on and feel like a kid again for a couple of hours before the serious drinking begins. But being flung hither and thither to the accompaniment of a Helene Fischer song isn't as fun when you're over 30. I only need to stagger out an exit with wobbly legs one time in the day, thank you very much.
