WHAT TO EXPECT AT MUNICH OKTOBERFEST 2015

How do we soak up the beer?

Oktoberfest isn't internationally renowned for its fine dining, but there are treats to be found for those willing to seek them out.

While most visitors will just be looking for something greasy to get their face around to alleviate their alcohol intake – and the biggest tents are only too happy to provide half a chicken or a buttered Brezel – gastronomes can find ample fare too.

There are an endless variety of stalls and sit-down restaurants offering delicacies from delicate veal schnitzel to delicious Kaiserschmarrn pancakes.

If you're really determined not to eat half a chicken, you can have some strawberries. But only with chocolate on them.
