

**WAS ESSEN DIE DEUTSCHEN? / WHAT DO THE GERMANS EAT?****10 DELICIOUS FOODS YOU HAVE TO TRY WHILE LIVING IN GERMANY**

German food is delicious - particularly Weisswurst.

**There is so much more to German cuisine than sausages - but the Wurst is still a good food to start with on this culinary tour through Deutschland.**

**1. Weisswurst mit Brezel**

Once you've tasted the delights of this white German sausage, there really is no going back. In Bavaria, the homeland of *Weisswurst*, locals insist it should only be eaten before midday. So if you want to fit in, make sure not to order it in a restaurant after noon. Instead buy it at a butchers, go home, draw your curtains - then sneak a second helping where no Bavarian can see you.

Weisswurst needs to be as fresh as possible, and a salty pretzel with a sweet mustard dip are essential accessories. And this heavenly experience wouldn't be complete without a cool local beer. Yes Weisswurst is a breakfast food, but this is Bavaria we're talking about.
