(Where can you eat and drink?)

essen / speisen / trinken

snack bar: der Schnellimbiß, die Schnellimbisse

snack stand: die Schnellgaststätte, die Schnellgaststätten

stand-up snack bar: die Imbißstube, die Imbißstuben

Traditional German street snacks such as "currywurst" — and its less exotic relative, the "rostbratwurst" (grilled sausage) — are usually eaten at a tall bar table in front of the wurstbude (sausage snack bar). The wurstbude is especially widespread in western Germany and Berlin and serves as a recurring backdrop in the Cologne version of the popular TV detective series, "Tatort."

A cult thing

Fish rolls are sold at fish stands like this one in Hamburg's harbor. The maritime snack became a real cult after the former ill-reputed "Reeperbahn" red light district became a party street. Since then, fish sandwiches have been an essential part of any visit to Hamburg — especially after a long night out drinking.
