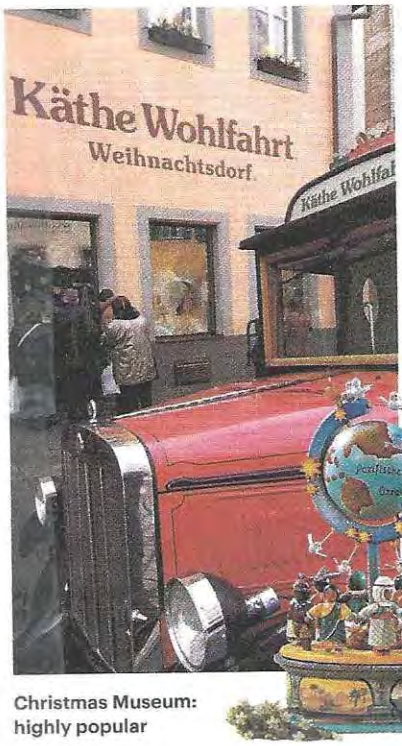
EIN BLICK NACH BAYERN / A GLANCE AT BAVARIA

EIN BLICK AUF ROTHENBURG OB DER TAUBER
(A LOOK AT THE TOWN OF ROTHENBURG ABOVE THE TAUBER RIVER)

It is often thought to have inspired the town center of Mêlée Island in the 1990 point-and-click graphic adventure game *The Secret of Monkey Island*, but creator Ron Gilbert has claimed the resemblance is a coincidence.[10]

The video game *Team Fortress 2* features a map titled "Rottenburg", a play on the original's namesake along with visually similar architecture.

The southern part of the marketplace is prominently featured in the video game *Gabriel Knight 2* depicting the fictional town of Rittersberg.



Christmas Museum: highly popular

Santa's grotto

Every day is Christmas at Käthe Wohlfahrt, a Rothenburg-based retailer of traditional decorations and toys. With six stores in Rothenburg alone, it sells more than 30,000 different Christmas items, while its Herrngasse shop has a museum devoted solely to Christmas (*www.weihnachtsmuseum.de*). Perhaps no other nation celebrates Christmas (*Weihnachten*) so much as Germany, which has successfully exported its Christmas markets around the world. The Wohlfahrt stores are named after the wife of Wilhelm Wohlfahrt, who began by selling musical boxes on US army bases after the War. They are now in America, France and Belgium. *www.wohlfahrt.com*
