Heather Menzies (Louisa von Trapp)

Very mischievous and enjoyed playing tricks, like hiding spiders in the previous governess's bed. Menzies's career only got better after her role in *The Sound of Music* cast. Following *The Sound of Music*, she worked in many popular TV shows including multiple episodes of *Dragnet* (https://www.dpbolvw.net/click-100151656-13750962?url=https%3A%2F%2Fwww.fye.com%2Ffye.000000400063142721.html&cjsku=fye_000000400063142721). Then in the late '70s, she got her own show co-starring with Gregory Harrison in *Logan's Run* (<https://amzn.to/3nrMV1J>). Unfortunately, it was canceled after one very-underrated season. Her final acting role was in 1990 for the TV series *American Dreamer*.

Menzies married actor Robert Urich in 1975 after meeting on a commercial shoot. After he died in 2002, she created **a foundation in his name that raises money for cancer research**. Sadly, she died of cancer in 2017 at the age of 68.
